

## School Tobacco Policy

---

Please be reminded that Booneville Schools strictly prohibits the use of tobacco products and electronic nicotine devices on any educational property. This includes all smoke and smokeless tobacco as well as vape products. Educational property is defined as any public school building or bus, campus, grounds, athletic field, parking lots, or other property used or operated during a school-related activity. If anyone is found in violation of this, that person is subject to a fine and a citation issued by a law enforcement officer. Please help us maintain a safe and healthy environment by not using tobacco products and electronic nicotine devices at today's event.
